

2026 MHCGM Training Calendar

Learning for every season. Expand your knowledge, strengthen your impact.

The Mental Health Center of Greater Manchester believes that a highly skilled workforce is vital to the care of our patients and the health of our community. We are committed to the professional development of behavioral health providers across the region.

With dozens of unique trainings and an equal number of expert training staff, MHCGM courses provide cutting edge, research driven curricula with continuing education hours through the National Association of Social Workers and the American Nurses Credentialing Center.

We are excited to have trained 1,016 individuals in 2025 and look forward to expanding that number in 2026!

We hope you decide to join us for one of our trainings found in this calendar. If you would like to bring a training to your place of employment reach out to Pete Costa at costapet@mhcgm.org.

The Mental Health Center of Greater Manchester's Training Department is supported by the US Department of Labor. A total of \$408,000.00 (29%) is financed with federal grant funds and \$994,644.60 (71%) is funded by other sources.
